I have the complete book on RD&E programs for the DDA including the problem statements. Since some ranking of our request is necessary I thought it might be helpful to provide this background. I plan to call a meeting of responsible officers in your offices in order to provide rankings.

EO/DDA

Ranking has been made per your request.

7 December 1978

MEMORANDUM FOR: Executive Officer, Directorate of Administration

SUBJECT: FY-81 RD&E Program

REFERENCE: A. Memorandum from Acting Director of Logistics dated 13 September 1978, Subject: Research and Development Programs *OL 8 4252 (P+PS)*
B. Memorandum from Director of Training dated 20 September 1978, Subject: RD&E Customer Problem Statements
C. Memorandum from Director of Security dated 29 September 1978, Subject: FY-81 R&D Planning Cycle

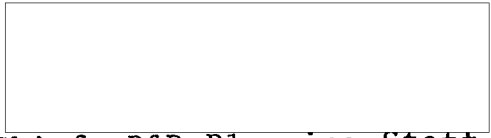

1. (U) The attached proposed FY-81 RD&E efforts are in response to the problem statements submitted by your Office (see reference).

2. (U) It would be most useful to the DDS&T if, as a result of your review of the proposed projects, you would provide the following rankings; first, for the proposals pertaining to each problem statement show the relative value of the output/product/service of each proposed project to the solution of the stated problem by numbering the proposals in sequence with 1 indicating the highest value, 2 the next highest value, etc. and; second, indicate the importance of each problem statement by lettering the problem statements with A indicating the most important, B the next most important, etc. This procedure will result in each proposed RD&E project having an alpha/numeric designator that will readily show DDS&T management its relative merit to the customer. If our proposals do not appear to satisfy a problem statement or are unresponsive, please provide comments about the proposals in lieu of ranking them. We would however appreciate your providing the ranking of the problem statement.

UNCLASSIFIED

OL 8 5586

3. (U) The proposals identified with the prefix "I" were generated without a written problem statement from you. Please rank them according to their importance as if there had been a problem statement. We would appreciate receiving your response by COB 22 December 1978.

Chief, R&D Planning Staff
